At **CubeWx**, our users' privacy is at the core of our decision making.

We provide a service that changes the way we work and allows us to be more productive and informative in our daily online activities.

We have created this page to show you how we handle any sensitive or private information.

Where does my data go within **CubeWx**?

Absolutely nowhere!

We do not under any circumstances use any of your data for ourselves.

We do not under any circumstances use or store any of your data.

Where does my data go outside of **CubeWx**?

Back to the source.. Facebook

When using the marketplace to find or sell items we post a request to facebook to obtain the location of the item you are viewing.

This location can already be viewed on the default map provided by the item page, so nothing new here.

We do not under any circumstances use or store any of your data.

Personal or Sensitive data used by CubeWx

Mappy Plus is loyal to you!

When making requests to obtain the location for items we make use of your **User Id** which is defined by Facebook as *`Your User ID is a string of numbers that doesn't personally identify you but does connect to your Facebook profile. You have a User ID automatically, whether or not you choose to create a username.`* [Read](#)

We use this ID along with current session information to request the item meta-data directly from your page.

At no point and under no circumstances do we direct any of this data through external servers.

We do not under any circumstances use or store any of your data.
